

Spacious Place

Part the heavens and come down on me

Come down, come down

Part the heavens and come down on me

Come down, come down

And draw me out into

A spacious place with you

And draw me out into

A spacious place with you

Part the heavens and come down on me

Come down, come down

Part the heavens and come down on me

Come down, come down

And draw me out into

A spacious place with you

And draw me out into

A spacious place with you
